

Technical Specifications

Degreaser & Bitumen Remover

ADOCOAT DEGREASER & BITUMEN REMOVER represents a completely new development in the area of the next generation of ester-based microemulsions and out-performs all previous products when cleaning oil and grease from hard surfaces

ADOCOAT DEGREASER & BITUMEN REMOVER is safe to use, safe to store and easy to handle.

ADOCOAT DEGREASER & BITUMEN REMOVER is developed for application in industrial, institutional and house-hold applications for heavy-duty applications.

ADOCOAT DEGREASER & BITUMEN REMOVER is an optimised combination of surfactants, ester solvents and coupling agents.

The product forms the basis of high-performance degreasers for removal of oil, Bitumen and greasy residues.

ADOCOAT DEGREASER & BITUMEN REMOVER has an exceptional all round cleaning profile and is a serious alternative to cold-cleaners based on hydrocarbon solvents, hydrocarbon-based microemulsions and high-alkaline cleaners.
